MY WC CAN DO MORE

At Geberit, sanitary technology and bathroom design go hand in hand. You can rest assured that you will receive a WC system that convinces in every respect – both aesthetically and functionally.

FUNCTIONS YOU CAN RELY ON

The hydraulics of the flush technology and ceramic appliance are optimally coordinated with one another. This results in outstanding flush performance and reliable functionality for many years.

DESIGN THAT ENHANCES ANY BATHROOM

Geberit offers elegant toilets with concealed fastening, Rimfree® WC ceramic appliances and matching seats, plus a wide variety of actuator plate designs.

INSTALLATION TECHNOLOGY THAT PAYS OFF

Thanks to Geberit's sophisticated installation technology, toilets can be installed up to 40 % faster than when using conventional methods. This not only saves time, but also money.

ADDED PERFORMANCE

TurboFlush flush technology from Geberit offers outstanding flushing-out performance in combination with the cistern. The ceramic appliance is clean with the first flush, meaning a toilet brush is rarely needed.

EASY TO CLEAN

Rimless ceramic appliances, the easy-to-remove QuickRelease seat and the virtually non-porous special glaze KeraTect® ensure that your toilet is cleaned in a flash.

PERFECT DESIGN

You can choose an actuator plate for flush actuation that perfectly matches your bathroom and personal style. Geberit has a range of series, designs, materials and colours available in all price segments.

OUR CONTRIBUTION TO A SUSTAINABLE SANITARY INDUSTRY

"FOR SEVERAL DECADES, SUSTAINABILITY HAS BEEN AN INTEGRAL PART OF GEBERIT'S CULTURE. OUR FOCUS HERE IS ON CONSISTENT IMPLEMENTATION ON AN ONGOING BASIS AND WITH MEASURABLE RESULTS."

Christian Buhl, CEO

BINDING SUSTAINABILITY STRATEGY

Over 30 years ago, Geberit tabled an initial environmental strategy and began to implement specific measures. Over the years, this strategy was gradually developed into a comprehensive sustainability strategy. It is based on the UN 2030 Agenda for Sustainable Development and their 17 Sustainable Development Goals.

In line with the UN 2030 Agenda, Geberit also takes economic, ecological and social aspects into account. It is the company's declared aim to leave behind the smallest possible ecological footprint along the entire value chain. Geberit also has a cooperation with suppliers and business partners that is based on fairness. Another important building block in the strategy is the education and further training of employees, as well as plumbers, sanitary engineers and architects.

HIGHEST ECOVADIS SUSTAINABILITY RATING

The strategy is paying off. In 2022, Geberit was awarded the Platinum rating from EcoVadis for the third year running – the highest possible rating awarded by the company. EcoVadis is a provider of business sustainability ratings and evaluates more than 100,000 companies in over 175 countries in the areas Environment, Labour & Human Rights, Ethics and Sustainable Procurement.

With the Platinum rating, Geberit is among the top one per cent of all companies rated by EcoVadis. The award shows both customers and suppliers that Geberit has comprehensive, systematic and long-term sustainability management in place.

DESIGNED WITH DURABILITY IN MIND

Thanks to their top-class materials and strict quality requirements, Geberit products have a service life spanning several decades. Furthermore, they are usually backwards-compatible and can be cleaned and maintained easily. A significant proportion of the Geberit product range also has a guaranteed spare parts availability of up to 25 years.

CAREFUL HANDLING OF RESOURCES

In production, the goal is to close internal material cycles, minimise waste and recycle it where appropriate. Plastic is used in the most resource-efficient and economical way possible in order to manufacture high-quality, durable products. For example, almost 100% of plastic waste is recycled internally and reused. Geberit also pays attention to using as little packaging material as possible. The company mostly uses cardboard and dispenses with expanded polystyrene and other plastics wherever feasible.

REDUCING THE COMPANY'S FOOTPRINT

Geberit actively contributes to climate change mitigation and consistently reduces its energy consumption and CO₂ emissions. The new strategy for reducing CO₂ emissions builds on the successful activities of recent years. The goal is to reduce the CO₂ intensity (CO₂ emissions in relation to currency-adjusted net sales) by 5 per cent per year.

ECO-DESIGN FOR ADDED VALUE

For 15 years, Geberit has ensured that every new product should be better than its predecessor from an ecological perspective in order to conserve natural resources.

An example of the eco-design principle using a typical Geberit product group – a WC system. The iCon Rimfree® WC with flush guide made of 69% recycled ABS is installed on the Duofix installation frame 111.300. In the Sigma 12 cm concealed cistern, the flush valve 212 ensures water consumption is reduced. The flush is triggered via the recyclable Sigma30 actuator plate, which is fastened in a frame made of 100% recycled ABS.

A COMMITMENT TO THE CIRCULAR ECONOMY

Geberit has set itself the goal of generating added value for customers, the environment and society with resource-saving, durable products. The key here is eco-design. All products have been developed consistently in line with this principle since 2007. Each product should be better than its predecessor from an ecological perspective – and all without sacrificing on quality, functionality or durability. All stages of the product life cycle are considered here, from obtaining the raw materials right through to disposal.

Geberit products are characterised by their use of high-quality materials and a service life spanning several decades. The products are usually backwards-compatible and can be cleaned, maintained and repaired easily. A significant proportion of the product range also has a guaranteed spare parts availability of up to 25 years. The use of bought-in recycled plastic is also playing an increasingly important role in closing material cycles.

Geberit also offers resource-saving products at the washplace. The wood used for bathroom furniture such as the Geberit Option Plus mirror cabinet or the washbasin cabinet in the Geberit iCon bathroom series is FSC™-certified. The Geberit iCon vanity basin is made of natural raw materials. The ecological footprint of the ceramic appliances is shown transparently in an environmental product declaration (EPD). The space-saving washbasin drain is produced with 100% green electricity. It is backwards-compatible and has a spare parts availability of 25 years. The tap aerator on the Geberit ONE washbasin tap saves water, regardless of the pressure.

THE PERFECT BALANCE

DESIGN MEETS FUNCTION

We use our passion for design and technology to inspire and excite people all over the world. By applying our vast know-how and almost 150 years of experience, we ensure our products are not just beautiful to look at, but truly make life easier and more comfortable.

Responsibly made from fine and durable materials, Geberit products are a perfect balance of elegant design and outstanding function. They are easy to clean, easy to use and increase comfort.

DESIGN
MEETS
FUNCTION

Design Meets Function is the name given to this fusion of outstanding functionality with aesthetic design for the entire bathroom.

GEBERIT IS A EUROPEAN MARKET LEADER ...

... in the field of sanitary products, providing outstanding added value in sanitary technology and bathroom products.

Geberit is a global ambassador for quality with sales offices in over 50 sales offices and 29 production sites worldwide, with headquarters in Rapperswil-Jona, Switzerland, where Caspar Melchior Albert Geberit founded the company in 1874.

Over 12.000 employees are committed to providing customers with innovative, sustainable and durable products of the highest quality.

Geberit prides itself on its strong competence for innovation, enabled and supported by the Group's wide-ranging research and development activities. Customers can rest assured that new products meet their needs – not to mention the very highest quality standards.

We asked private customers throughout Europe what is important to them in a bathroom. Six properties were mentioned time and time again: design, cleanliness, user-friendliness, space-saving solutions, comfort and accessibility. As everyone has different priorities, we offer bathroom series which are specifically adapted to different needs.

And that means you can create your very own dream bathroom. With products which embody functional design at its best. With reliable technology, which represents the state of the art of know-how in sanitary technology. At Geberit, you will find all functions for your personal wellness zone and bathroom design that corresponds exactly to your style. Look forward to a bathroom that fulfils your needs – and exceeds your expectations!

I EXPECT MORE FROM MY BATHROOM

DESIGN

A simple and timeless look that is easy to combine – for anyone looking for modern elegance, and a diversity of colours and materials.

CLEANLINESS

Clever products that remain virtually dirt-free and are easy to clean – for anyone that wants to keep cleaning to a minimum.

USER-FRIENDLINESS

Intuitive, easy-to-use products – for anyone who, after a conversion or renovation, wants to be sure of optimum functionality.

SPACE-SAVING

Clever functions and products that create space – for anyone who does not want to do without functionality and storage space.

COMFORT

Products that bring comfort and hygiene to the bathroom – for anyone who wants to treat themselves to some extra freshness, well-being and cleanliness.

ACCESSIBILITY

Easily accessible, floor-even bathrooms – for anyone looking for universal design, regardless of needs and age.

DESIGN

I ATTACH GREAT IMPORTANCE TO PERFECT BATHROOM DESIGN

Design Museum London, Bauhaus Berlin and the Museum für Gestaltung in Zurich: inspiring visits to exhibitions are some of the personal highlights on my travels. Ideas and inspiration I get here, I implement at home – in the bathroom too I attach importance to a perfectly coordinated design concept.

Design solutions from Geberit offer a whole range of options for creating stylish bathrooms down to the last detail. Products and solutions regularly receive renowned design prizes, such as the Red Dot Award and the iF Design Award. With a variety of shapes, materials and surfaces as well as consistent perfection in processing, Geberit is compelling in every design concept.

GEBERIT ACTUATOR PLATES

Geberit actuator plates give every bathroom unique accents. Either round or geometric in shape, top-quality materials and trendy surfaces enhance every bathroom.

SIGMA21

SIGMA50

GEBERIT AQUACLEAN

Timeless, elegant design and concealed technology make Geberit AquaClean shower toilets genuine lifestyle accessories which convince users in terms of both look and function. A modern, stylish toilet equipped with exceptional functions.

↑
GEBERIT AQUACLEAN SELA
The classic shower toilet functions in puristic, elegant design for aesthetes who are style conscious.

GEBERIT ONE

The stand-alone Geberit ONE washbasin is compelling with simple elegance and a design concept that makes full use of the possibilities provided by the prewall installation. Neither a tap hole bench nor a visible overflow spoil the overall aesthetic impression.

CLEANLINESS

CLEANLINESS HOW CAN YOU BEST DEAL WITH **HAIR AND DIRT?**

Sometimes I could tear my hair out: every time I have a shower, I can sense my partner's frustration because my hair clogs the shower drain and is very difficult to remove. What solutions can I use to make my bathroom as easy to clean and to keep tidy as I would like?

Hair in the bathroom is annoying and clogs the shower and washbasin drains. Geberit provides drain solutions which elegantly solve this problem and which are also easy to clean.

←

COMB INSERT

Many Geberit drain solutions have a comb insert to protect the drain.

GEBERIT CLEANLINE SHOWER CHANNEL

The comb insert of the Geberit CleanLine shower channel reliably collects hair. It can be taken out and cleaned with a flick of the wrist. The drain profile of the elegant shower channel is also easy to clean: unlike other solutions, it has no hidden, hard-to-reach areas. This means that neither dirt nor bacteria can accumulate. With just one wipe, the open outlet surface is squeaky clean.

NEEDS

Everyone wants their bathroom to be spotlessly clean and tidy, but nobody relishes the cleaning involved. Geberit therefore offers clever solutions which make cleaning and maintenance simpler and significantly reduce the formation of deposits.

TOUCHLESS FLUSH ACTUATION

The touchless flush actuation is less prone to dirt and reduces the risk of germ transmission.

←
SIGMA80 TOUCHLESS
Plate: white, Design rings:
bright chrome-plated
116.090.SG.6

WC SEATS WITH QUICKRELEASE FUNCTION

CLEANING WITHOUT DIRT TRAPS

Lift off the lid, wipe the surface, click the lid back into place: with a removable seat and lid, the WC is much easier to keep clean all-round.

RIMFREE WCS

SIMPLER CLEANING WITHOUT A RIM

The rimless Rimfree WC ceramic appliances offer modern standards of hygiene and ease of cleaning. The flush technology with flush guide ensures completely dynamic flushing out and reduces the amount of cleaning involved – even with the partial flush.

GEBERIT TURBOFLUSH

ASYMMETRICAL WATER GUIDE

Quiet, thorough and with outstanding flushing-out performance: the asymmetrical inner geometry of the innovative Geberit TurboFlush flush technology is based on a completely rimless WC ceramic appliance and minimises the cleaning required.

←
FLOW-OPTIMISED
The lateral water inlet in combination with the asymmetrical ceramic appliance sets the water in a spiral movement.

USER-FRIENDLINESS

MY BATHROOM UNDERSTANDS ME

I like to perform my morning rituals in the bathroom without thinking. I appreciate innovative functions and smart solutions that make my everyday routine simpler. How can I make my bathroom user-friendly all round?

Geberit develops innovative products and solutions which make bathroom life simpler and more convenient. They are self-explanatory, relieve the user of work and offer real added value.

CLOSES ITSELF

The durable Geberit soft-closing mechanism closes the WC lid gently and quietly. Even if it is moved too quickly, it lowers itself slowly and closes quietly. This makes for more relaxed bathroom users and also protects the material of the seat, lid and ceramic appliance.

INTUITIVE REMOTE CONTROL

CLEAR USER GUIDANCE

The remote control for Geberit shower toilets has an intuitive design. The buttons feature simple symbols and can be operated without the need for explanation. On the rear, you can make and save individual user-specific settings.

SELF-EXPLANATORY

To operate a Geberit AquaClean shower toilet, you don't need a user's guide.

SPACE-SAVING

WHERE AM I GOING TO PUT ALL MY BATHROOM TREASURES?

Jars, tubes and pots, sponges and brushes: I love beauty products. But where am I going to put all my cosmetics in the bathroom? And how will I find my favourite products when I need them again?

There's no such thing as too much space in the bathroom. But a lot of bathrooms are not as big as their users would like. Geberit offers space-saving furniture and shelf surfaces that use the available space perfectly and make it simple to keep things tidy.

STORAGE SPACE WITHOUT INTERRUPTION

The Geberit VariForm washbasin cabinets are compelling with an outstanding amount of storage space – without being interrupted by a trap cutout. With variable arrangement systems, internal division can be adjusted exactly to suit personal needs.

GEBERIT ONE WALL-MOUNTED TAP

A wall-mounted tap creates additional space at the washbasin. It does not need a tap hole bench and is designed without interruptions. You can choose between the bright chrome-plated version or the trendy colour black matt.

NEEDS

Geberit offers lots of innovative solutions which make optimum use of the space in the bathroom. They also ensure tidiness and systematic order even on small floor plans.

SHOWER DRAINS

FREEDOM OF MOVEMENT UNDER THE SHOWER

By concealing the water outlet in the prewall, only the removable cover is visible on the wall.

GEBERIT WALL DRAIN

The fact that the shower drain has been concealed facilitates floor-even showers in their purest form. The floor under the shower is completely uninterrupted.

MIRROR CABINET

LOTS OF SPACE IN THE PREWALL

The Geberit ONE mirror cabinet is integrated in the prewall with a barely visible projection. It gives the bathroom a generous look and offers plenty of storage space, without limiting the space.

APOTHECARY CABINETS

PILING HIGH FOR EXTRA STORAGE SPACE

They have been proving their worth in the kitchen for a long time, now apothecary cabinets are also conquering the bathroom. With good reason: the Geberit Acanto tall cabinets with apothecary pull-out offer plenty of storage space without taking up too much floor area. Thanks to the pull-out mechanism, cosmetic products can be stored tidily and are always to hand.

COMFORT

SOMETIMES I'M FED UP WITH MY SISTER

Every morning, my sister hurries to the bathroom just before I want to use it. And when she has finally finished, the smell is dreadful and there's nothing I can do about it apart from hold my breath. Can unpleasant odours not just disappear?

Geberit DuoFresh removes unpleasant odours before they can spread throughout the bathroom. Odour extraction units can be built in directly behind the actuator plate and are already integrated in lots of Geberit AquaClean shower toilets.

← ACCESSIBLE

Ceramic honeycomb filter is easily accessible behind the actuator plate.

←

EFFICIENT AND QUIET

In the ceramic honeycomb filter, the air is cleaned thoroughly. A quiet fan conveys the purified air back into the room.

GEBERIT DUOFRESH ODOUR EXTRACTION UNIT

Geberit DuoFresh is beneficial for all the senses. The odour extraction unit starts automatically due to user detection when someone sits down on the toilet. It extracts the air directly from the ceramic appliance and then returns the purified air to the room. The DuoFresh module is easy to integrate into the Geberit Sigma concealed cistern.

DUOFRESH DESIGN VARIETY

The DuoFresh odour extraction unit can be combined with all mechanical actuator plates Sigma01 to Sigma50 series.

It is often only small things that make the difference between the standard and an extra touch of well-being and freshness. With Geberit, you bring more comfort into your bathroom – with wellness functions that you will soon no longer want to live without.

WHIRLSPRAY SHOWER TECHNOLOGY

PATENT ON THOROUGH CLEANING

The patented WhirlSpray shower technology dynamically enriches the shower spray with air. It ensures targeted and thorough yet particularly gentle cleaning with little water consumption. You feel fresh and clean all day long.

WC SEAT HEATING

PLEASANTLY WARM AUTOMATICALLY

← STARTING WITH PROXIMITY SENSOR

The WC seat heating starts automatically with a proximity sensor.

The WC seat heating gets toilet seats pleasantly warm at the right time. During the colder months, nobody should have to sit on a cold toilet any more. In the warmer months, the function can simply be deactivated.

ORIENTATION

DISCREET GUIDE THROUGH THE NIGHT

The Geberit orientation light can be set to seven colours. It switches on automatically when you approach the WC and provides orientation in the bathroom at night. Its subdued light makes it easier to go back to sleep again. The orientation light is integrated in various AquaClean shower toilets, the odour extraction unit DuoFresh and the sanitary module Geberit Monolith Plus.

ACCESSIBILITY

I WANT A BATHROOM FOR MY WHOLE LIFE

As an amateur sportsman, it is important to me to stay in motion. But what happens if my mobility decreases? As a precaution, I want to furnish my bathroom in such a way that it can be used optimally and remains easily accessible in every situation.

Your new bathroom should be able to satisfy your requirements for the next 25 years and be able to adjust itself to suit changes in your life. That is why it is important to plan ahead. Geberit provides you with bathroom equipment in front of the wall and systems behind it which offer you comfort in virtually every situation.

FLOOR-EVEN SHOWER SOLUTIONS

Floor-even shower solutions are chic and ensure you have step-free access to the shower area. With shower surfaces such as Geberit Olona, the antislip properties are integrated from the start. That gives you comfort and safety for today and tomorrow.

SUBSEQUENT HEIGHT ADJUSTABILITY

WC SEAT HEIGHT EASY TO ADJUST

The sophisticated installation technology of the Geberit ONE WC makes it possible to adjust the ceramic appliance flexibly in terms of height years after it was installed. Particularly appealing: no structural measures in the prewall are necessary because the technology for height adjustability is in the WC. That provides flexibility across the generations.

YOUR WISHES, YOUR BATHROOM

Which qualities are particularly important to you in your bathroom? Geberit offers bathroom series that are specifically tailored to different needs. Using the table on the next page, you can quickly find the bathroom series that suit your specific needs, life situation and budget.

BATHROOM SERIES

For unique bathrooms with character: Geberit bathroom series create environments where individual requirements and wishes are catered for. They offer creative freedom so that everyone can make their own personal style a reality.

GEBERIT ONE

The Geberit ONE bathroom series combines know-how in sanitary technology with versatile design expertise and is thus a pioneering and comprehensive solution for the entire bathroom. Cleverly combined in a single system, Geberit ONE impresses with its many benefits, both obvious and hidden. This means greater cleanliness, more space and greater flexibility in the bathroom.

DESIGN

CLEANLINESS

USER-FRIENDLINESS

COMFORT

ACCESSIBILITY

WHEN DESIGN AND FUNCTION BECOME ONE

WASHBASIN

Geberit ONE washbasins in many variations, including as square lay-on washbasins and with ceramic surface in white matt.

WC

Geberit ONE WCs are available in the classic white glossy finish or with the trendy surface white matt.

Geberit ONE offers a wide range of options for designing bathrooms that impress both aesthetically and functionally. Washbasins, bathroom furniture and mirror cabinets in various designs are perfectly coordinated with one another and can be combined to suit your individual requirements.

WHEN DESIGN AND FUNCTION BECOME ONE

WASHBASIN VARIETY WITH INNOVATIVE DRAIN

The Geberit ONE washbasins with a horizontal drain combine the highest design requirements with unique functionality.

The horizontal washbasin drain has been tailored to the design of the washbasins and is cleverly positioned at the back edge of the bowl. Its innovative technology creates more space in the drawers of the washbasin cabinet. By shifting it to the rear, the drain is not directly in the water jet's line of fire. This prevents water splashes from the drain, leading to a significant reduction in water and limescale residues and the amount of cleaning required. A magnetic attachment holds the cover exactly in position. Behind the cover is an easy-to-clean comb insert that effectively stops hair from entering and clogging the trap and discharge pipes. Despite the hidden overflow solution, the horizontal drain allows the washbasin to be filled with water.

1 Washbasin with shelf on the side, taps and drain cover in black matt. **2** Elegantly integrated: Vanity basin with large shelves on the side. **3** Round lay-on washbasin with wall inlet. **4** Clear lines: Angular lay-on washbasin. **5** Water fun for two: Standard double washbasin with deck-mounted taps.

1

Geberit ONE washbasins with a classic drain take tried-and-tested products to a new level.

Geberit ONE washbasins with a vertical drain are available in three versions: as standard washbasins and vanity basins in various widths, and as lay-on washbasins in angular or bowl-shaped designs. The drain has an elegant ceramic cover with an integrated comb insert. All models are equipped with space-saving drain technology that does away with the need for a conventional trap cutout in the cabinet. As a result, additional space is created in the upper drawer of the washbasin cabinet.

PERFECTION TO THE LAST DETAIL

1

Moisture-resistant

SoftClosing doors and drawers/excerpts

Lots of storage space

2

3

1 The excellent workmanship of the Geberit bathroom furniture gives any bathroom a touch of exclusivity. The modern tall cabinet offers even more design variety and also provides additional practical storage space. **2** Thanks to the slim drain technology, there is no trap cutout in the upper drawer. This means there is much more storage space available. **3** The high-quality drawer system ensures smooth, quiet running. LED light strips are available as accessories.

WHEN DESIGN AND FUNCTION BECOME ONE

YOUR BATHROOM, YOUR DESIGN, YOUR COLOURS

Geberit ONE bathroom furniture offers a wide range of colours, surfaces and material appearances. This means that everyone can find the right bathroom equipment for their own personal style.

STANDARD PROJECTION, 48 CM

TIDINESS AND CLARITY

Modular arrangement systems create clarity in the wash-basin cabinet. New LED light strips illuminate the drawers perfectly.

SET IN STONE

The cover made of solid marble-look stoneware in black or white gives the bathroom an exclusive appearance. Also available in white glass and lava.

1

1 A magnifying mirror on the inside of the doors is optionally available. 2 An integrated, easily accessible mains connection for a shaver or hairdryer can be found in the upper part of the cabinet. 3 The height of the glass shelves is continuously adjustable. 4 Back-to-wall installation means the cabinet is concealed almost entirely in the prewall. 5 Tidy storage: nail scissors and files can be attached easily to the magnetic strip.

WHEN DESIGN AND FUNCTION BECOME ONE

EVERYTHING AT YOUR FINGERTIPS IN THE MIRROR CABINET

Geberit ONE mirror cabinets are available in a wide range of models for designing the bathroom completely according to your needs and personal tastes. In the back-to-wall installation, the storage space is shifted to the wall. This means freedom of movement at the washplace and a clear, tidy appearance. The models for classic attachment in front of the wall also have a slim design and can be installed in any bathroom without the need for special preparations. Both variants are available with all-over mirror doors or shortened doors and a lit niche at the bottom.

CONCEALED GEBERIT ONE MIRROR CABINETS

Back-to-wall installation can be made quickly and easily in a specially prepared Geberit ONE washbasin installation element.

WHEN DESIGN AND FUNCTION BECOME ONE

PERFECTLY COORDINATED TO YOUR DAILY ROUTINE

↓
STANDARD LIGHT
Non-dazzling lighting for everyday activities at the washplace.

↑
WORKING LIGHT
Bright, clear lighting for intensive beauty care.

Light has a significant impact on our well-being. White, bright light wakes us up, while subdued, warm light has a relaxing effect. Sanitary products and bathroom furniture with Geberit ComfortLight impress by coordinating the colour temperature and brightness: in continuous dimming, bright light becomes automatically cooler and darker light warmer. The lighting conditions follow natural daylight and ensure a homely atmosphere. Four different light sources harmonise perfectly and ensure the washplace and bathroom are presented optimally. They create an authentic mirror image without casting shadows.

-  Soft orientation light for night-time visits to the bathroom
-  Continuously dimmable brightness
-  Non-dazzling light

↓
ORIENTATION LIGHT
Soft lighting for finding your way to the washplace at night and then getting back to sleep easily.

PERFECT PROPORTIONS, CLEVER DETAILS

-  Hidden wall mounting
-  WC seat with SoftClosing mechanism
-  Flush of 4.5 litres
-  Ground clearance
-  TurboFlush

The Geberit ONE wall-hung WC boasts an elegant, perfectly balanced design and is also optionally available with a white matt surface. A eureka moment comes when opening the lid, revealing the asymmetrical, completely rimless inner geometry of the WC ceramic appliance. TurboFlush flush technology: The asymmetrical geometry of the ceramic appliance and lateral water inlet result in a unique flushing-out performance. The technology is much more effective than a normal flush, not to mention much quieter and more efficient. The WC seat and lid can be easily removed with a flick of the wrist for cleaning. Thanks to the sophisticated installation technology, the height of the ceramic appliance can be flexibly adjusted without needing to open up or damage the wall – even years after being installed.

↑
The WC lid and seat can be removed by pulling them upwards after raising them.

1

KeraTect

With their Italian design, the washbasins from Geberit Citterio embody a simple and timeless elegance.

Symmetrical lines frame gently rounded inner basins and provide generous space for washbasins. A perfectly designed and specially developed, ceramic waste cover is seamlessly incorporated into the basin

design. Nothing can disrupt the aesthetics of the washbasins, as they are designed completely without an overflow hole, made possible by the patented Geberit washbasin connector Clou.

2

3

4

5

6

1 The gently curved inner basin is an exciting contrast to the geometric outer form. 2 The lay-on washbasins in a pure organic shape are especially eye catching. 3 Matching washbasin cabinets mean that cosmetic products are always within reach. 4 Washbasins, bathroom furniture and illuminated mirrors. 5 Geberit Citterio offers elegant solutions when space is at a premium, such as in guest bathrooms. 6 Stylish storage space for sophisticated bathroom designs.

GEBERIT CITTERIO BATHROOM FURNITURE

GENUINE ITALIAN DESIGN GRANDEUR

The generous storage space solutions complement the puristic organic elegance of the Geberit Citterio bathroom ceramics. The design series is synonymous with a distinctive ordered aesthetic.

The finish on the Geberit Citterio washbasin cabinets is as unique as you are. High-quality glass cover plates in shades to match the chosen furniture colour lend the Geberit Citterio bathroom furniture an additional shine. The combination of wood and glass results in an exciting and elegant interplay – rounded off by the door handles in on-trend champagne.

GEBERIT

GEBERIT XENO²

The designer range Geberit Xeno² is synonymous with architectonic design minimalism. Clear geometric lines outside – soft, natural shapes inside. This combination leads to surprising results that are easy on the eye and a joy to use. Geberit Xeno² boasts a perfectly coordinated product range comprising intelligent, well-thought-through elements created in an identical design language. Contrasting design, harmoniously combined.

WASHBASIN CABINETS
Geberit Xeno² washbasin cabinets
in a minimalistic design.

GEBERIT XENO² WASHBASINS

Minimalist and superior design combined with convenient and versatile functions: Geberit Xeno².

As an expression of the natural clear lines, Geberit Xeno² washbasins have a slightly raised tap hole bench with a narrow platform to the edge of the basin. The absence of overflow holes means that the aesthetics of the inner basin's flowing forms are not disrupted. The clear design statement offers advantages when it comes to hygiene and ease of cleaning too.

1 The soft curved form of the basin appears as an exciting contrast to the clearly geometric outer contour of the washbasins. **2** A clear focus: bathroom furniture and WCs perfectly match the washbasins. **3** The geometric design language of Geberit Xeno² for modern bathroom designs. **4** A slightly raised tap hole bench is a beautiful and convenient design aspect. **5** Exceptional: asymmetrical basin form with shelf at the side and rear. **6** The asymmetrical basin form permits interesting solutions even in small spaces.

Hidden overflow

Solid surface material

GEBERIT XENO² WASHBASINS SLIM LINE

SLIM LINES FOR EXCLUSIVE WASHBASIN AREAS

Geberit Xeno² washbasins made of the solid surface material Varicor stand out due to their particularly SlimRim. Together with the matching bathroom furniture, they create highly exclusive bathrooms featuring washbasin areas that are spacious while at the same time boasting a lightweight appearance. Fascinating details such as an integrated light strip underneath the washbasin provide interesting highlights.

1 An elegant washbasin area for two people with a light strip discreetly incorporated between the washbasin and the washbasin cabinet. **2** The washbasin cabinets can also be combined with the functional towel rails from Geberit's bathroom accessory range. **3** A gentle push-to-open mechanism for easy opening and closing of the drawers. **4** The light strip also lights up the washbasin cabinets, which can be laid out in a variety of different ways. **5** An inviting and spacious washbasin area with wall-mounted taps and a matching illuminated mirror.

GEBERIT XENO² BATHROOM FURNITURE

AN ELEGANT LINE WITH CLEVER DETAILS

The elegant Geberit Xeno² bathroom furniture follows the geometry of the ceramic, creating a minimalistic bathroom ambience. Sophisticated furniture fronts lend the series a naturally lightweight appearance. The handle-free washbasin cabinets underline the minimalist design with a functional push-to-open mechanism that ensures ease of use. The furniture provides generous storage space, with practical features such as antislip mats and clever arrangement systems for bathroom accessories. Integrated LED lighting ensures a perfect view inside the upper drawers.

ELEGANT GLASS COVER PLATES

Glass cover plates underline the elegant look and provide lasting surface protection for washbasin and side cabinets.

Convenience meets precision in the 170 cm tall cabinet. The fitted highlights include variable glass shelves, a large internal mirror, integrated profile handles and a convenient SoftClosing mechanism. The cabinet for handrinse basins and the tall cabinet are available with right-hand or left-hand doors.

GEBERIT XENO² ILLUMINATED MIRRORS CREATE AMBIENCE

Matching illuminated mirrors with LEDs follow the strict geometry of the Geberit Xeno² series. Available for all Xeno² washbasins in widths from 40 to 120 cm, they allow the washbasin to take centre stage with atmospheric, indirect light. When applying make-up or shaving, direct lighting from above can be activated via a sensor switch with a dimming function. For a clear view at all times, anti-mist heating is available for the mirror surfaces.

1

1 Versatile drawers with push-to-open mechanism ensure order and convenience. 2 The Geberit Xeno² illuminated mirrors with antimist function for a clear view in all situations. 3 Sophisticated furniture fronts underline the lightweight appearance of the bathroom furniture series.

Compact option

1

CLEAR DESIGNS, SLIM CONTOURS, GENTLE CURVES
The washbasins from the Geberit Acanto bathroom series are presented in a timelessly modern soft organic design, with clear geometric contours and organically shaped inner basins. They are available in different variances as standard, slim or compact basins in different sizes. In this way, Geberit is meeting the desire for attractive, modern and individually designed bathrooms. The SlimRim design gives washbasins a particularly elegant, slender appearance. The standard washbasins are available with and

without shelf surface or with short projection for en-suites and guest bathrooms. Furthermore, the Acanto series offers two washbasins with integrated ceramic Clou system and no overflow hole.

1 Harmonious furniture concepts with a great deal of creative freedom: Geberit Acanto bathroom series. **2** The washbasin with integrated shelf surface is a visual highlight and offers clear, added value. **3** The SlimRim washbasins have a particularly elegant, slender appearance. **4** Combination of SlimRim washbasin with under and side cabinets for a lot of storage space. **5** Space-saving solutions for guest bathrooms.

GEBERIT ACANTO BATHROOM FURNITURE

FURNITURE TO EXPRESS YOUR INDIVIDUALITY

The Geberit Acanto bathroom furniture offers freedom of design and functional excellence. Following extensive tests with consumers, the series has been developed to meet the widest variety of everyday needs. The inside of the furniture is surprisingly flexible, with the arrangement of the drawers, compartments and shelves creating an uncluttered environment. Magnetic boards – which can be mounted on the wall – enable storage trays or brackets to be attached precisely where the cosmetic items are needed. The innovative concept transforms the mirror cabinet above the washbasin into a beauty centre with a built-in magnifying mirror offering greater versatility.

With a wide range of washbasin cabinets, tall cabinets, mirror cabinets and shelf solutions, the Geberit Acanto bathroom furniture creates the perfect storage space for every bathroom. The furniture is available in the four colours white, sand grey, lava and black.

The designers of the bathroom furniture placed a particular emphasis on a modern combination of different materials and surfaces such as glass, metal, painted and wood finishes, not to mention the individual composition of the different furniture types.

GEBERIT ICON WASHPLACES FOR GUEST BATHROOMS

1

WASHBASIN SOLUTIONS FOR SMALL FLOOR PLANS

The Geberit iCon bathroom series includes washbasins that are specially designed for small bathrooms or guest WCs. They offer a wide range of solutions for cramped floor plans. Shelves on the side and tap holes allow for low installation depths. Corner solutions also mean they can be installed in niches. Washbasin cabinets, low cabinets and side elements matching the dimensions of the washbasins create storage space. The Geberit iCon Rimfree® WC ceramic appliance with small projection

is the ideal addition to the range for small floor plans. The handrinse basin and WC ceramic appliance are also optionally available with a white matt surface. The Geberit Option Plus illuminated mirror with a width of just 40 cm provides pleasant illumination in small bathrooms and is compatible with the space-saving washbasins.

GEBERIT VARIFORM

The Geberit VariForm design concept is based on the four basic geometric shapes – round, rectangle, oval and ellipse and the three most common installation types. Together with the Geberit VariForm bathroom furniture with its calm, understated design, the range now offers the creative freedom to design the bathroom exactly in line with one's own individual wishes. Modular washbasin area solutions for absolute design freedom.

DESIGN

CLEANLINESS

USABILITY

1 Lay-on washbasins with gently rounded elliptic shape, combined with wall-mounted taps.
2 Lay-on washbasins with clean rectangular geometric shape, with deck-mounted taps on base panel.

GEBERIT VARIFORM MODERN WASHBASINS

THE LATEST DESIGN TRENDS – MADE VERSATILE AND ERGONOMIC

The streamlined rims of Geberit VariForm washbasins are the perfect match for cutting-edge bathroom designs. Countertop and lay-on washbasins are available both with and without a tap hole bench. The tap can be installed as a deck-mounted tap on

the ceramic or the base panel – or alternatively, as a wall-mounted tap on the prewall installation. All Geberit VariForm models feature a generous basin depth to ensure freedom of movement in ergonomic conditions. Made from high-quality sanitary ceramic, the washbasins are scratchproof and resistant to cracks, as well as easy to care for.

The Geberit VariForm design concept is based on the four most important basic geometric shapes, using them to create new and different variations every time. The under-countertop, countertop and lay-on washbasins from the ceramic appliance series are suitable for public sanitary facilities as well as washbasin areas in hotel and private bathrooms. The modular system offers an almost endless range of design options.

Geberit VariForm bathroom furniture expands the design possibilities of the washbasin area with VariForm lay-on washbasins.

GEBERIT VARIFORM WASHBASIN CABINETS FOR LAY-ON WASHBASINS

FOR WASHBASIN AREAS WITH STYLE AND STORAGE SPACE

The calm, understated design of the Geberit VariForm washbasin cabinets gives the washbasin area a sense of lightness and perfectly complements the lean, modern design of the washbasins. The modular system allows for flexible planning tailored to the space available, resulting in individually designed washplaces. The washbasin cabinet is available in widths of 75 and 90 cm, each with one drawer. It can be expanded with the addition of low cabinets with 45 cm width. The result is cabinet combinations

with generous widths of 120 or 135 cm. The side elements are available with one drawer in the same construction height as the washbasin cabinet, or with two drawers in an increased construction height. Two complete washbasin cabinets can be connected together for double washplaces or additional storage space. The furniture comes in a wide range of colours – white, lava, oak and hickory – and therefore blends in harmoniously with a wide range of furnishing styles.

GEBERIT SMYLE WASHBASINS

CAPTIVATING LIGHTWEIGHT APPEARANCE

Ornate lines, harmonious shapes and narrow rims characterise the washbasins of the Geberit Smyle complete bathroom series. They provide an exciting contrast to the functional design of the inner basin and the generous shelf surfaces at the rear of the washbasins. The profile handles of the washbasin cabinets mirror the design of the washbasins and underline the harmonious appearance. Geberit Smyle washbasins are available in two designs and many different sizes, from handrinse basin to comfortable double washbasin. It thus offers a wide range of solutions to meet all requirements in the modern bathroom.

1 Spacious double washbasin: the profile handle of the washbasin cabinet is perfectly adapted to the curve of the basin. **2** Integrated lighting elements in the mirror help the washbasin area take centre stage. **3** Washbasins in a soft-organic design. **4** Washbasins in a soft-geometric design. **5** A wide bathroom furniture range with attractive surfaces.

Moisture-resistant

SoftClosing drawers/
excerpts

MORE DESIGN FREEDOM IN THE BATHROOM

As part of the facelift given to the Smyle bathroom series, Geberit adapted the furniture to the form of the ceramic washbasins. To achieve this, the furniture concept features thin washbasin contours. As is standard at Geberit, high-quality materials, coated surfaces and modular elements are used. The washbasin cabinets, low cabinets, medium cabinets and wall shelf with towel hook can be mixed and matched to create a wide range of furniture combinations that optimally use the space in the bathroom and meet diverse furnishing wishes.

Depending on requirements, open cabinets can also be combined with closed ones, for example. Additionally available drawer inserts give the storage space a clear structure. Glass shelves and an internal mirror give the medium cabinets a touch of premium class. Colour-adapted glass tops protect the shelf surfaces on the low cabinet. The integrated profile handles have the same colour as the fronts of the furniture, with their matt surface and ornate lines forming a subtle contrast.

1 Cosmetic products can be neatly stored in the bathroom furniture's SoftClosing drawers. **2** Handrinse basins with matching washbasin cabinets are suitable for the furnishing of small bathrooms and guest toilets. **3** Bathroom furniture with ground clearance makes cleaning the floor easier. **4** Magnetic boards with movable shelves offer a high degree of flexibility.

HARMONIOUS BATHROOMS FOR ALL ROOM SIZES
The washbasins from the Geberit Selnova bathroom series have an evenly rounded basic form. The inspiration behind this is provided by basin radius with an organic, natural shape. The design language of Geberit Selnova is characterised by a naturally soft geometry with gentle curves. The softly curving inner basin and a slim basin edge segues into a large tap hole bench that serves as a storage space.

1 The soft curves of Geberit Selnova are adapted from nature. **2** Slim edge with a smooth transition to the storage space behind. **3** Washbasin solutions with a pedestal to conceal the trap.

The wide range of wall-hung and floor-standing WCs with built-in ceramic cisterns has a solution for everyone when it comes to meeting structural requirements in the bathroom.

SUITABLE TOILETS FOR EVERY CONSTRUCTION SITUATION

The WC ceramic appliances from Geberit Selnova also feature classically soft curves. In order to offer modernisation solutions for every bathroom, they are available as a wall-hung and floorstanding model. With Rimfree technology the WC ceramic appliances are particularly easy to look after.

Matching bidets are also available as a wall-hung and floor-standing model.

GEBERIT SELNOVA SQUARE

Geberit Selnova Square is different, classic designs blend harmoniously into every room. This is in addition to many clever solutions for special requirements, making it very easy and affordable to get an old bathroom to shine in new splendour in all its modern glory. Corners and edges, new highlights.

DESIGN

CLEANLINESS

ACCESSIBILITY

An elegant pair – the integrated washbasin with particularly narrow rim combined with the washbasin cabinet.

GEBERIT SELNOVA SQUARE WASHBASINS SLIM AND BATHROOM FURNITURE

SLEEK ELEGANCE, PERFECTLY TRIMMED

The new, sleek Geberit Selnova Square washbasins combine a clear rectangular design with an organically shaped inner basin. They form a perfect unit with their washbasin cabinets and matching bathroom furniture with trendy surfaces in white high-gloss coated.

GEBERIT SELNOVA SQUARE BATHROOM FURNITURE

A CLEAN-LINED CONCEPT

Clean lines and gentle chamfering are the key features of Geberit Selnova bathroom furniture. The washbasins taper downwards to form a connection with the cabinets underneath, which are set noticeably further back. This approach enhances the slimline, lightweight appearance of the bathroom series. The integrated, delicately curving profile handles mimic the curves formed by the fronts of the washbasins, emphasising the impression of lightness.

SOLUTIONS FOR A RANGE OF INSTALLATION SITUATIONS

The fronts and bodies are available in white. The furniture can be wall-hung or floor-standing, with chrome feet or skirting boards available to choose

from. Modular side cabinets are available in a variety of shapes and sizes. The furniture is delivered fully preassembled, with the option of attaching the door hinge on either side.

SET FOR LAY-ON WASHBASIN AND WASHTOP

A new, modern washplace combination expands the design possibilities for Selnova Square. The oval lay-on washbasin, washtop and washbasin cabinet are perfectly coordinated with one another. The new sets for the Geberit Selnova Square lay-on washbasins are available in four colours and in the sizes 60 and 80 cm.

FOR STYLISH BATHROOM PLANNING THAT SPANS GENERATIONS

The Geberit Selnova Comfort solutions enable older people and those with reduced mobility to retain their independence in the bathroom without compromising on the quality of fittings. The products implement important functionalities in an appealing design, which is based on Geberit's many years of experience in the development and manufacture of solutions for bathrooms that span generations. These solutions include the extremely flat washbasin offering ample legroom when a wheelchair is rolled underneath or WCs with a wide projection of 70 cm to facilitate easy movement from the wheelchair and a WC seat secured against slipping.

→ ACTUATOR PLATE
Geberit Sigma10.

↑ A washbasin that is wheelchair accessible makes personal washing and care a breeze – even when seated.

↑ WC with extended projection for wheel chair access.

- Extremely flat for ample legroom when seated; easy to access
- Softly curved and easy to grip
- Straight arm rest and support area

1 Washbasin with full pedestal for an elegant impression. 2 Washbasin with half pedestal - light and airy, and easy access to clean the floor. 3 Washbasin without pedestal, the uncomplicated solution.

CHILD-FRIENDLY SANITARY ROOMS ENCOURAGING CHILDREN TO LEARN ABOUT HYGIENE

Children have particular requirements for bathrooms in childcare centres, schools and other establishments. Child-friendly bathroom fittings support and simplify the development of hygienic practices in a playful way.

CHILD-FRIENDLY WASHBASINS

- Sanitary ceramics at a child-friendly height and with child-oriented equipment
- Can be mounted at a flexible height between 450 and 600 mm depending on the age
- Designs that appeal to children and promote toilet training

Hygiene, easy cleaning and safety play an important role when designing sanitary rooms in childcare establishments. However, it is also important not to forget the fun factor which makes teaching children about cleanliness so much easier.

HYGIENE EDUCATION THROUGH FUN AND GAMES

A child-friendly, low wall-hung washbasin with a design that appeals to even the youngest of critics makes teaching children about cleanliness easier and simply more fun. Clever details such as the low installation depth and a closer tap hole make it easier to use. It also features taps in amusing designs and colours that awaken a child's curiosity.

- 1 Child-friendly basin height. 2 The soft basin form reduces the risk of injuries.
3 Tap hole bench brought forward: makes it easier for short arms to reach the water jet.

WASHSPACES FOR PLAYFUL LEARNING

- For teaching children about hygiene in a playful way
- Safe and inviting design
- Suitable for children of different ages
- Can be adapted to the spatial circumstances
- Stimulates learning through play: the top basin can be filled with water thanks to a removable damming plate
- Maximum level of dammed water is 100 mm with the damming pipe – prevents flooding

1 Washspace for four children with damming device and various height levels. **2** Washspace for three children with damming device and various height levels. **3** Washspace for two children without a height offset. **4** The soft contours protect against injuries. **5** Child-friendly tap with manual actuation. **6** Child-friendly tap with touchless IR sensor designed specifically for little hands. Both taps available in a coloured and in a bright chrome-plated version.

Children love to play with water! With special basins made of solid surface material, it is easy to encourage children to play with water in sanitary rooms. Cascading basins at various heights turn washing and brushing teeth into fun and games. And little ones of all ages are sure to find the right basin for their height.

EASY TO USE

The handle of the deck-mounted tap for child-friendly sanitary rooms is designed as a baseball cap with a peak, which makes washing hands even more fun.

HYGIENIC

Instead of a baseball cap with a peak, the electronically controlled tap in the same design features a fixed hat.

INDIVIDUAL

Geberit washspaces can be adapted to various requirements and spatial circumstances. They come in a number of different sizes and formats, and individual special fabrications are also possible.

5 Child-friendly tap with manual actuation.

6 Child-friendly tap with touchless IR sensor designed specifically for little hands.

CHILD-FRIENDLY WCS AND ACCESSORIES

TOILET TRAINING MADE EASY
WC ceramic appliances with child-friendly heights and equipment help children to adapt to toilet training. The child-friendly WC ceramic appliance with feet is not just funny to look at, it also has a practical side: children whose feet do not yet touch the floor when they are sitting down can rest them on the appliance's feet. And with various surfaces and WC lids, everyone will find the perfect seat for the bathroom.

1 Inviting WC seat. **2** Small children can rest their feet on the WC ceramic appliance's feet. **3** The WC seat is easy to clean, hygienic and ergonomic. **4** The "ears" of the WC seat can be used as support handles. **5** Geberit baby washdown WC 280 mm. **6** Geberit child washdown WC 320 mm. **7** Geberit child washout WC 370 mm. **8** Geberit child wall-hung washdown WC.

GEBERIT PUBLICA SPECIAL SOLUTIONS TAILORED TO YOUR NEEDS

Certain care and hygiene scenarios, as well as industrial, commercial and leisure facilities, require special solutions for particular needs and functions. Geberit Publica offers a wide range of special products for various application ranges and special requirements.

SUITABLE FOR:

EDUCATIONAL
INSTITUTIONS

CARE
FACILITIES

WORKPLACES

TRANSIT BUILDINGS,
TRADE FAIRS, SPORTS
FACILITIES

TAILOR-MADE SPECIAL WASHBASINS

Washbasins for very specific applications can be used in situations where normal washbasin ceramics or handrinse basins may fall short.

Geberit Publica offers a wide range of special solutions that are tailor-made for specific application ranges. Such solutions are required, for example, in nurseries and schools, hospitals and care homes, rehabilitation centres, in private homes and the leisure sector, in sports facilities as well as in industry, craft and trade.

1

1 Geberit Publica laundry sink for cleaning items in rehabilitation centres and in industry, for mounting on two ceramic stands. 2 Geberit Publica sink for cleaning items in industry and trade. 3 Geberit Publica sink for cleaning items in rehabilitation centres, industry, private homes and the leisure sector. 4 Geberit Publica foot basin with low suspension for schools, rehabilitation centres, industry and the leisure sector. Also for religious foot washing rites. 5 Geberit Publica double sink for cleaning items in rehabilitation centres, industry, private homes and the leisure sector.

CLEANER SINKS AND MORE

SPECIAL SINKS

Geberit Publica offers a range of sinks and basins for special applications such as cleaning items, discharging waste water or washing out textiles.

CLEANER SINKS

Special cleaner sinks are designed for the requirements posed by the disposal of waste water, mobile WCs and the like.

1 Geberit Publica slop hopper for filling and emptying buckets, disposing of waste water, emptying mobile WCs, rinsing potties, etc. For nurseries, hospitals, retirement homes, camping sites, industry/production, restaurants and event locations, schools and office buildings. **2** Stainless steel hinged grating of the Geberit Publica slop hopper with compensation pad. **3** Geberit Publica cleaner sink for workrooms in schools, nurseries, rehabilitation centres, industry and trade, private homes and the leisure sector, can be combined with hinged grating and plastic cover.

→
ACTUATOR PLATE:
Geberit Sigma10.

Squatting pan as an alternative to the sitting WC.

SQUATTING PAN

In certain cases, people require squatting pans which are built into the floor.

NO CONTACT WITH THE SANITARY CERAMIC

Squatting pans are seen by many people as a hygienic alternative to the sitting WC, as there is no direct skin contact with the WC ceramic.

SURFACE-EVEN INSTALLATION IN THE FLOOR

Geberit Publica squatting pans are designed for surface-even installation in the floor and for installing with a Geberit Sigma concealed cistern. The pan is installed in a closed-off mortar bed.

WASHBASINS

Lay-on, countertop and under-countertop washbasins offer individuality when fitting out and furnishing the bathroom. They can be combined in diverse ways, such as with glass, natural stone and countertops made of many other product materials.

GEBERIT PRECIOSA II WASHBASINS

**WHEN THE SUPERFLUOUS IS OMITTED,
THE TRUE SUBSTANCE IS REVEALED**

Design purists seek clear lines and structures. By limiting itself to the circle and rectangle – which determines all the washbasin's components – Geberit Preciosa II consistently fulfils these desires. Towel rails at the front or side continue the geometric contour of the washbasin.

MIRRORS AND MIRROR CABINETS

Illuminated mirrors and mirror cabinets are a real focal point in the bathroom. The Geberit Option series offers a comprehensive selection that provides the perfect soft light for your bathroom routine. Fashioning washbasin prominence in any bathroom.

BATHTUBS

A comfortable bathtub is very important to bathroom customers. Who doesn't enjoy relaxing in a warm bath and leaving the stresses of the day behind. Geberit offers bathtubs in numerous formats, designs and with a variety of different features that bring a touch of wellness into every bathroom, regardless of the floor plan.

ELEGANT HARMONY

Geberit Tawa bathtub with slim rim and a new, minimalist bathtub drain with turn handle.

GEBERIT BATHTUBS

A pleasant warmth relaxes the limbs while enchanting fragrances pamper the senses. Taking a bath in your own bathroom means peace, tranquillity and relaxation. These are the most beautiful breaks that everyday life has to offer. Pure wellness in warm water.

GEBERIT SOANA BATHTUBS

-  Warm temperature of the surface
-  Durable, long-lasting material
-  Easy to repair if scratched
-  Acoustic and thermal insulation
-  Colour match with ceramics
-  Easy to clean
-  Low product weight

STYLISH BATHING PLEASURE

Created in a soft organic design, the Geberit Soana bathtubs offer an indulgent bathing experience. The sense of well-being is supported by the smooth surface of the bath material, which keeps the water warmer for longer. The bathtub is available with a waste outlet in the middle or at the narrow end. The Geberit PushControl waste and overflow is the perfect addition, with the slim design matching the outstanding comfort of the bathtub.

GEBERIT TAWA BATHTUBS

PURE RELAXATION IN SOFT GEOMETRIC BATHING COMFORT

The bathtub Geberit Tawa features soft curves and a clear outer contour. As a rectangular bathtub single and duo, it comes in six sizes. The outlet of the single tubs is at the foot of the bath; they are extremely comfortable for one person lying down in the tub. The duo tubs are chamfered on both sides so that two people can sit or lie in the tub together comfortably. In this case, there is a central outlet.

Extremely narrow tub edge.

1 Bathtub drain with integrated inlet. 2 The drain can be opened and closed easily using the turn handle. 3 Drain cover and turn handle in a perfectly coordinated and elegant design.

■ GEBERIT

SHOWER SOLUTIONS

Showering is a peaceful and relaxing way to start the day. Thanks to shower solutions from Geberit, invigorating shower experiences can be enjoyed in every bathroom.

GEBERIT SHOWER SOLUTIONS

Today, floor-even showers are an important part of discerning, comfortable bathrooms – they offer considerably more comfort and simply look better. And thanks to clever technical solutions, they are also easy and safe to install. The shower of today.

GEBERIT OLONA SHOWER SURFACE

The Geberit shower surface Olona is compelling thanks to its elegant appearance in matt white with a design drain cover as well as the palpably solid material combination of resin stone with a Gelcoat finish.

The surface design covered in Gelcoat gives the matt white shower surface Olona a visible and tangibly elegant look. The drain cover in the same colour is aesthetically enhanced by a slim-line chrome ring. Thanks to its Class B antislip properties, the shower surface offers secure footing whatever your age. With 26 different sizes and formats, there is a suitable model for every floor plan. Installation is flush with the tiles or, in renovation, is mounted with a narrow threshold above the bathroom floor.

↑ Fine, attractive touch: the slim-line chrome ring which surrounds the white drain cover of the shower surface. The ring is also available in white, or in black on the black drain cover.

sizes in cm

GEBERIT NEMEA SHOWER SURFACE

Accessibility

ELEGANT AND COST-EFFECTIVE SOLUTION

The rimless Geberit Nemea shower surface combines a pleasant feel with ease of cleaning and an attractive design. It is made of sanitary acrylic, which has proven itself in the bathroom for many years thanks to its resistance to ageing and its surface that is warm to the touch. Even minor scratches can be easily buffed out.

The drain is covered by a white disc with elegant chrome edging, under which a comb insert effectively stops hair from entering and clogging the drain.

Geberit Nemea is available in glossy or matt versions in the colour white alpine.

↑ Simple elegance that fits into any bathroom: The Geberit Nemea shower surface is available in nine different sizes and formats.

1 A comb insert prevents from clogging and is easy to remove and easy to clean. **2** Also available in a tile bearing version. **3** The Geberit shower channel CleanLine80 impresses thanks to its integrated slope and is available among others in the trendy champagne colour.

HYGIENIC, CLEAN AND SIMPLY BEAUTIFUL: GEBERIT SHOWER CHANNELS OF THE CLEANLINE SERIES FOR FLEXIBLE BATHROOM DESIGN

Geberit CleanLine breaks new ground in shower drainage. It does not discharge the water invisibly in a channel but instead via elegant stainless steel collector profiles. There are no hidden areas meaning that dirt is prevented from accumulating and leading to unpleasant odours. Simply wipe over the profile once and everything is clean.

Geberit CleanLine is considerably more flexible than many other shower drainage solutions as the collector profile can be simply cut at both ends and adjusted to the nearest millimetre depending on the room conditions.

GEBERIT WALL DRAIN FOR SHOWERS

TAKING THE FLOOR-EVEN SHOWER A STEP FURTHER

The Geberit wall drain shifts the drainage of floor-even showers from the floor to behind the wall. Not only does this look very attractive, it also makes it easier to install a floor-even shower. Both the water supply and waste water installations are behind the wall and the floor can be tiled throughout. This also makes it possible to install underfloor heating without interruption.

All that remains visible is a small cover on the wall that can be easily removed to clean the comb insert behind. The cover is available in various surface finishes and can also be tiled to match the design of the wall.

1 Discreet and very easy to clean. 2 The wall drain cover can also be tiled to match the bathroom design.

Bathroom Magazine

GEBERIT AQUACLEAN SELA BEAUTIFULLY CLEVER

Are you a fan of beautiful design and are looking for that little bit extra in your bathroom? If so, the Geberit AquaClean Sela model is the ideal choice. It offers numerous functions that are intuitive to operate and blends in perfectly in any bathroom thanks to its clear design, without it actually standing out as a shower toilet. Now also available with a matt ceramic.

WhirlSpray shower technology with five adjustable shower pressure settings

Rimless ceramic pan with TurboFlush technology

Intuitive and clearly laid-out remote control

Orientation light in a range of seven colours

Individually adjustable spray arm position

Adjustable water spray temperature

Oscillating spray

Gently cleaning lady wash

SoftClosing

QuickRelease function for the WC lid and seat

User detection

Descaling function

Energy-saving function

Geberit App

Power & Connect Box

With Geberit AquaClean Tuma, the choice is yours. Do you go for the basic functions as seen in the Classic model, or extra comfort with the Comfort model? Both options are available at an attractive price. The Geberit AquaClean Tuma is available as a WC complete solution with matching Rimfree® WC ceramic appliance and hidden connections for water and electricity – or as a WC enhancement solution for retrofitting existing WC ceramic appliances.

-  Dryer
-  Odour extraction
-  User detection
-  Power & Connect Box

FLUSHING SYSTEMS

Aesthetics and functionality in perfect harmony: Geberit offers attractive concealed and exposed solutions for thorough flushing of the WC ceramic appliance. Everyone can therefore find the flushing system that suits their bathroom and own personal preference.

GEBERIT ACTUATOR PLATES

Geberit actuator plates are the defining luxury finishing touch for any bathroom. Combining visual elegance with innovative functions and a range of sumptuous finishes, they are an essential reflection of individual style. It's not just any bathroom, it's your bathroom.

MINIMALISM WITH A SENSE OF FLOATING LIGHTNESS

With its clear geometric design and high-quality materials, the Geberit Sigma70 actuator plate meets the highest aesthetic requirements. It is based on a proven mechanism with two perfectly synchronised buttons for the water-saving dual flush. The gap between the buttons for the large and small flush volume is so thin and precisely machined that the plate surface appears as if it were cast from a single mould. The design supports simple, intuitive operation. High-quality materials and colours underline the outstanding appearance of the Sigma70 actuator plate. The plate is available in glass (white, black, sand grey and lava) and stainless steel (brushed, red gold, black chrome and brass), and in black matt and white matt stainless steel.

stainless steel black matt

stainless steel white matt

stainless steel red gold

stainless steel brass

stainless steel black chrome

The purist, frameless design, convex surface and thin structure give the innovative Geberit Sigma70 actuator plate a sense of floating lightness.

The trend towards individualisation also brings with it increasing demands for design options in the bathroom that are as diverse as possible. These are often nuances that have to be perfectly coordinated. Actuator plates in new, trendy metal colours can make a small yet significant difference here.

ODOUR EXTRACTION

FRESH AIR FOR EVERYONE

WC
Geberit Smyle

ODOUR EXTRACTION UNIT WITH ORIENTATION LIGHT

The Geberit DuoFresh module removes unpleasant odours directly from the WC ceramic appliance before they can spread through the bathroom. It extracts the air directly from the WC, cleans it in a ceramic honeycomb filter and then redirects the air into the room free of odour. An integrated orientation light provides discreet lighting for going to the toilet at night. This means you no longer need the bright

bathroom lights and you find it much easier to fall asleep again. Air extraction and light are automatically controlled by a proximity sensor. The Geberit odour extraction unit suits every bathroom style; it can be combined with most Geberit actuator plates of the Sigma series.

Unpleasant odours are removed right at the source.

ACCESSIBLE

The ceramic honeycomb filter can be easily accessed via the actuator plate.

EFFICIENT AND QUIET

The air is purified by the ceramic honeycomb filter. A quiet fan conveys the purified air back into the room.

LED ORIENTATION LIGHT

An LED orientation light is a further convenience. It is under the actuator plate and shines a discreet, indirect light into the room – simply perfectly-thought-out.

GEBERIT MONOLITH AND MONOLITH PLUS

Geberit Monolith sanitary modules offer new possibilities for bathroom design. With elegant surfaces and surprising functions. For designer bathrooms.

FUNCTIONS FOR GREATER COMFORT

The premium sanitary module Geberit Monolith Plus offers state-of-the-art flush technology for WCs. The flush is triggered by gently pressing the sensor buttons. The integrated lighting can be continuously dimmed and blends in perfectly with the ComfortLight on the Geberit ONE mirror cabinet. The settings range from cool, bright daylight through to a romantic sunset or candlelight in a warm light colour. An odour extraction unit absorbs odours directly in the WC ceramic appliance so that the bathroom stays fresh at all times. A sanitary flush unit ensures regular water replacement in the drinking water system and can be used to set the flush intervals in advance.

ATTRACTIVE SURFACES FOR GREATER DESIGN FLEXIBILITY

The front cover made of safety glass is available in the colours white, black, lava and sand grey. The side cladding in anodised colourless aluminium can be combined with the surfaces white and sand grey and the side cladding in black chrome harmonises with the surface variants lava and black.

AN ATTRACTIVE ALTERNATIVE

The Geberit Monolith sanitary module for WCs combines modern flush technology with a stylish design. The dual flush ensures an appropriate and water-saving flush. Exclusive surfaces made of glass and brushed aluminium or black chrome make for attractive highlights in new construction as well as in renovation, for example as a substitute for an old surface-mounted cistern.

MODULES FOR THE WHOLE BATHROOM

Matching sanitary modules for bidets make it possible to create bathrooms with a coherent design. The Geberit Monolith for bidets is equipped with a towel rail.

COLOURS/ MATERIALS

The way that surfaces look and feel has a determining influence on the style and impression of a bathroom's interior. Geberit therefore offers their bathroom furniture, sanitary modules and actuator plates in a variety of different materials and colours. All in the name of achieving the perfect bathroom.
